RE: Rouzer Group Signs New Manufacturers – AJAX Tools and US Tape

Rouzer Group is excited to announce that we are now officially your AJAX Tools and US Tape representatives within the STAFDA and construction markets!

AJAX Tools provides *USA made* chisels and accessories for pneumatic, electric, and hydraulic breakers serving the construction and industrial markets. They have built on their expertise in heat-treating, forging, and machining, earning a reputation for uncompromising dedication to quality.

Founded over 140 years ago, US Tape has been a trailblazer in the invention and manufacture of steel tape measures. This includes but is not limited to the printing press design that continues to serve as an industry benchmark today. In its more recent history, US Tape has developed or acquired several brands expanding its presence in the hardware industry.

Some brands to note are: *Kapro* a global leader in levels and lasers; *Occidental Leather* a US manufacturer and industry leader in tool belt systems; *DuraWheel* with its industry-leading design of measuring wheels; and *Stringliner* with its patented handle design for mason twine.

Visit our website to learn more about each brand or schedule a demo with your local Rouzer Group Account Manager.
