RE: Rouzer Group Signs on New Manufacturer – Ericson Manufacturing

Happy to announce that as of April 1st, 2021, Rouzer Group is your official Ericson Manufacturing representative in STAFDA and Industrial markets. Family owned since 1918, Ericson is the industry leader in electrical products with a commitment to safety, ease of use and reliability.

Ericson designs and builds innovative, cost-effective and safe temporary power and lighting systems solutions. Their award-winning designs and patents granted through the years are proof positive that Ericson consistently brings innovation to you. Their in-house Applications Engineering Team is available to assist you in providing design and layout solutions and have an impressive history of providing solutions with custom applications.

The Ericson product lines serve various markets, including: Construction, Renovation, Power Generation, Petroleum & Chemical Refining, Government, Food Processing, Rental, Transportation, Shipbuilding/Shipbreaking, and Entertainment.
