RE: Rouzer Group – New Manufacturer Announcement

Rouzer Group is proud to announce we are now representing Atkore's United Poly Systems high density polyethylene conduit solutions (HDPE). This change includes the Electrical, Broadband, Utility, C&I channels, and we no longer represent Endot Industries, LLC. Rouzer Group has been the manufacturer representative for Atkore's Allied Conduit for over 70 years and have enjoyed a great partnership. We also represent Atkore's Armored & Metal Clad Cable, Cable Tray Systems, Conduit & Cable Fittings, Strut & Fittings, and Pre-Fabricated Products.

Atkore's [United Poly Systems](#) is a national market-leading brand in high- and medium-density conduit and pressure polyethylene pipe for utilities, telecommunications, renewables, and water infrastructure applications. Our products are UL Listed, NSF certified, AWWA compliant, and adhere to ASTM standards for plastic pipe.

Thanks,
