RE: Rouzer Group - New Inside Sales – Commodities Team Member

We are very excited to announce the addition of Isaiah Dobson to our Inside Sales – Commodities team! Isaiah comes to us with some trade history, but is new to the electrical industry, he will be working through an immersion process with myself and our Inside Sales - Commodities team over the next few months.

A Stillwater, MN native, Isaiah is well acquainted with the trades as he recently graduated from Dunwoody College of Technology for Construction Project Management in 2022 and previously worked as a Carpenter. He acquired his love of carpentry from his father and occasionally assists him with cabinetry and millwork. Isaiah also attended the University of Jamestown where he minored in coaching and continues to ref basketball in his free time. On the weekends, he enjoys getting away to his family cabin in Wisconsin to fish with his 3 yr. old yellow lab, Winston.

Please join us in welcoming Isaiah to the team!

Isaiah Dobson
