RE: Rouzer Group – New Tool Specialist

Please join us in welcoming Miranda Kaste to our Tool Division as our new Tool Specialist!

As Tool Specialist, Miranda will be trained in on all the Rouzer Tool lines. She will assist our inside tool team with orders, tracking, promotions, and technical questions customers may have. She is eager to learn as much as she can about all our lines in order to get out in the territory to do trainings and demos. She is extremely hands on and we expect she will pick up the knowledge quickly.

Miranda comes from a custom remodeling company where she mainly served as a Sales Consultant/Office Administrator. She was the point-of-contact for prospective clients as well as subcontractors. Her experience in the industry has already proven to give her the edge she needs to be successful in this new role.

In her personal time, she enjoys sports, hunting with her family, and spending time at the lake.

Congratulations Miranda, and welcome to the team!
