RE: Rouzer Group – New Tool Specialist

We are delighted to announce the addition of Tommy Fernholz as Rouzer Group's new Tool Specialist!

Tommy wasted no time getting up to speed in his new role, having recently completed Fein's rigorous hands-on training program and will be collaborating closely with our manufacturers, immersing himself in the intricacies of our tools to become an expert in their demonstration. It is worth noting that Tommy has a personal connection to Rouzer Group, as several of his friends from school also work here!

Hailing from Stillwater, Minnesota, Tommy embodies the true spirit of a homegrown Minnesotan. His love for the outdoors, including hunting, fishing, and sports, reflects his deep appreciation for nature and adventure. While he temporarily escaped the bitter Minnesota winters to pursue his Business Administration degree, Tommy couldn't resist the allure of those -40° winter mornings that truly make Minnesota unique!

Join us in welcoming Tommy to Team Rouzer!

Tommy Fernholz
